REGENESYS EDUCATION

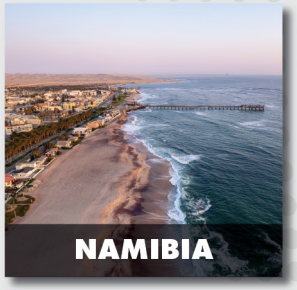

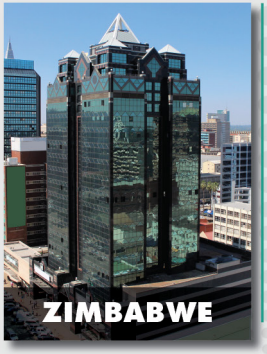

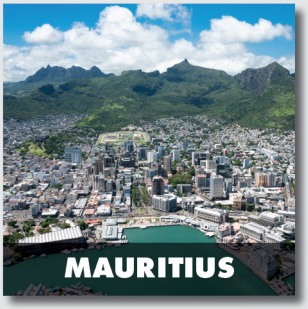

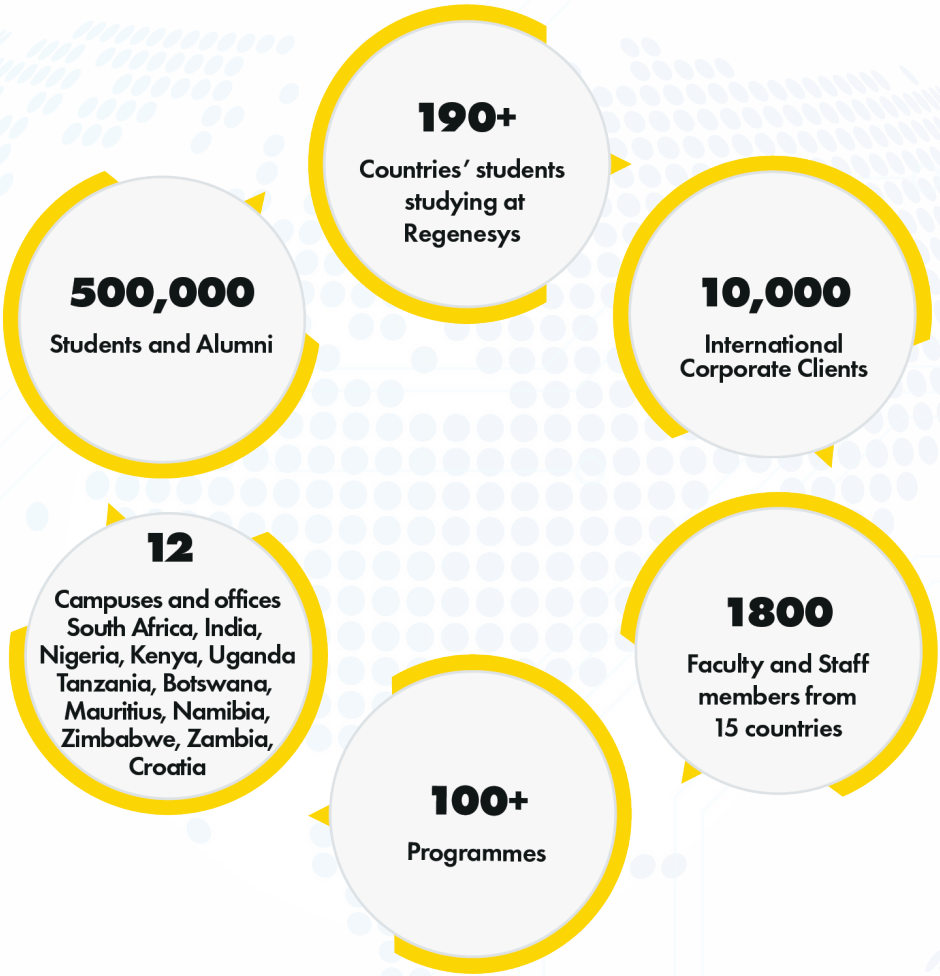

PROSPECTUS 2025

ABOUT REGENESYS

Regenesys offers a holistic, transformative learning experience with a deep history of academic excellence, a diverse community of students and a personalised approach to education. Regenesys campus is situated in the heart of Sandton, which is the richest square mile in Africa.

MESSAGE FROM THE CHAIRPERSON

WELCOME TO REGENESYS

The purpose of Regenesys is to help individuals and organisations achieve their dreams by awakening their potential. We believe that every human being has a unique talent and an inner power to achieve their dreams. However, this potential is blocked by fears and beliefs of a self-limiting nature.

We help our students to break their fears, change their self-limiting beliefs and achieve greatness by awakening their potential. We do this by providing high-quality education programmes and services that develop individuals holistically – intellectually, emotionally, spiritually and physically.

Regenesys is a special place of higher learning, matched by none. It provides life-changing opportunities to its students to pursue their careers with large multinationals or embark on their own entrepreneurial ventures.

Headquartered in Sandton, South Africa, and with operations in ten countries on three continents, Regenesys is one of the fastest-growing higher education institutions and edtechs, with more than 500,000 students and alumni from 190 countries and over 10,000 corporate clients, of which the majority are large multinationals such as Mercedes-Benz, Microsoft, Coca-Cola, and Samsung, to name a few.

Regenesys alumni occupy top leadership positions in multinational corporations and government institutions all over the world, and form a very influential alumni network that supports its members with business opportunities across the world.

Whatever dreams you decide to pursue, Regenesys will be there for you every step of the way, always encouraging you to dream bigger and never to give up.

I wish you great success on your journey of learning, leadership development, and making our world a better place. We would be delighted to be your life-long companion on that journey.

Wishing you happiness.

Dr Marko Saravanja
Executive Chairperson

CORPORATE CLIENTS

To date, we have revolutionised and trained more than 10,000 corporate clients with our bespoke executive training solutions.
Many of these corporates are large multinationals such as Mercedes-Benz, Microsoft, Coca-Cola, and Barclays, to name a few.

DOCTOR OF BUSINESS MANAGEMENT (DBM)

NQF 10 | CREDITS: 360 | SAQA ID: 101699

Programme Overview

This programme develops complex problem-solving capabilities through the application of rigorous scientific research processes, contributing to the management and leadership body of knowledge.

Core Modules

- Thesis (360 Credits)
- Advanced Research Methodology
- Access Programme

Admission Requirements

- A resume or curriculum vitae, and a letter motivating for your admission
- Certified copies of your master's degree certificate and academic transcript from an accredited institution
- Note that your master's degree should be relevant to this doctoral programme
- If your master's degree is from an institution in a country other than South Africa, supply a SAQA certificate for the institution
- Candidates who achieve a master's degree with an overall mark of more than 65%, or a master's thesis mark of more than 65%, will automatically be accepted to the Doctor of Business Management programme and admitted to its Advanced Research Methodology module
- Candidates who do not score 65% or more for either their master's degree overall or their dissertation will be admitted to the Doctor of Business Management programme provided they complete, and pass, a bridging programme
- Basic computer skills, internet connection and relevant IT resources
- Competent in English, written and oral communication skills

Programme Structure

The Doctor of Business Management is an NQF Level 10 qualification, with 360 credits. This 3-year qualification requires the generation of a thesis and publishable articles.

PROGRAMMES

MASTER OF BUSINESS ADMINISTRATION (MBA)

- Comparative Management Trends – 10 credits
- Information and Communication Technology Management – 10 credits
- Labour Relations – 10 credits
- Mentoring and Coaching – 10 credits
- Negotiation and Conflict Management – 10 credits
- Quality and Customer Service Management – 10 credits

Admission Requirements

- Relevant cognate postgraduate qualification on NQF Level 8
- Relevant work experience
- Basic computer skills, internet connection and relevant IT resources
- Competent in English, written and oral communication skills

Programme Structure

The Master of Public Management is an NQF Level 9 qualification, with 205 credits. This 2-year qualification consists of 13 compulsory modules, 2 electives and a research dissertation.

POSTGRADUATE DIPLOMA IN BUSINESS MANAGEMENT (PDBM)

NQF 8 | CREDITS: 125 | SAQA ID: 84066

Programme Overview

This programme develops generic management competencies required for successful management of organisations, or for embarking on an entrepreneurial venture. The programme is a stepping stone towards an MBA – the crown jewel of business management education.

Core Modules

- Advanced Human Resource Management – 20 credits
- Advanced Project Management – 20 credits
- Financial Management and Management Accounting – 20 credits
- Fundamentals of Business Research – 20 credits
- Organisational Strategy, Planning and Management – 20 credits
- Intermediate Personal Mastery – 5 credits

Electives: Select Two

- Advanced Marketing Management – 10 credits
- Advanced Operations Management – 10 credits
- Business Ethics and Corporate Governance – 10 credits
- Economics – 10 credits
- Sales Management – 10 credits
- Conscious Leadership – 10 credits

Admission Requirements

- A 3-year Bachelor's qualification or NQF Level 7 equivalent
- Relevant work experience
- Basic computer skills, internet connection and relevant IT resources
- Competent in Mathematics, English, written and oral communication skills

Programme Structure

The Postgraduate Diploma in Business Management is an NQF Level 8 qualification, with 125 credits. This 1-year qualification consists of 6 compulsory modules and 2 electives.

POSTGRADUATE DIPLOMA IN PUBLIC MANAGEMENT (PDPM)

NQF 8 | CREDITS: 125 | SAQA ID: 24353

Programme Overview

This programme develops strategic management skills required to manage public service or nonprofit organisations.

Core Modules

- Advanced Public Human Resource Management – 15 credits
- Advanced Public Project Management – 15 credits
- Fundamentals of Research – 15 credits
- Monitoring and Evaluation – 15 credits
- Public Finance – 15 credits
- Strategic Management in the Public Sector – 15 credits
- Intermediate Personal Mastery – 5 credits

Electives: Select Two

- Change Management – 15 credits
- Education and Curriculum Management – 15 credits
- Labour Relations – 15 credits
- Mentoring and Coaching– 15 credits
- Negotiation and Conflict Management – 15 credits
- Quality and Customer Service Management – 15 credits

Admission Requirements

- A 3-year Bachelor's qualification or NQF Level 7 equivalent
- Relevant work experience
- Basic computer skills, internet connection and relevant IT resources
- Competent in Mathematics, English, written and oral communication skills

Programme Structure

The Postgraduate Diploma in Public Management is an NQF Level 8 qualification, with 125 credits. This 1-year qualification consists of 7 compulsory modules and 2 electives.

PROGRAMMES

POSTGRADUATE DIPLOMA IN DATA SCIENCE (PDDS)

NQF 8 | CREDITS: 135 | SAQA ID: 122148

Programme Overview

This programme is designed to develop data analysis and computational abilities in students. The current business environment is being transformed by technological developments that simplify the storage and processing of data for effective decision-making. This postgraduate diploma enhances knowledge, giving students an awareness of the data-driven world and making them employable.

Core Modules

- Data Science with Python – 25 credits
- Data Storytelling using Power BI – 15 credits
- Intermediate Personal Mastery – 5 credits
- Mini Project (Based on Modules 1 to 4) – 10 credits
- Statistics for Data Science – 10 credits
- The Data Ecosystem – 10 credits
- Deep Learning with Artificial Neural Networks – 15 credits
- Major Project (Based on Modules 1 to 7) – 20 credits
- Predictive Modelling with Machine Learning – 25 credits

Admission Requirements

- A 3-year Bachelor's qualification in technology or NQF Level 7 equivalent
- Relevant work experience
- Basic computer skills, internet connection and relevant IT resources
- Competent in Mathematics, English, written and oral communication skills

Programme Structure

The Postgraduate Diploma in Data Science is an NQF Level 8 qualification, with 135 credits. This 1-year qualification consists of 9 compulsory modules.

POSTGRADUATE DIPLOMA IN DIGITAL MARKETING (PDDM)

NQF 8 | CREDITS: 135 | SAQA ID: 122867

Programme Overview

This programme equips professionals with cutting-edge digital marketing strategies to drive brand growth, increase engagement, and optimise return on investment. Graduates will gain expertise in managing digital campaigns, social media, SEO, and data-driven marketing in various industries.

Core Modules

- Legal English – 12 credits
- Pillars of South African Law 1 – 12 credits
- Law of Persons – 12 credits
- Family Law – 12 credits
- Foundational Personal Mastery – 5 credits

SEMESTER 2 - COMPULSORY

- Computer Literacy (Legal Research) – 12 credits
- Pillars of South African Law 2 – 12 credits
- Emotional and Spiritual Intelligence – 12 credits

ELECTIVES: SELECT TWO

- Business Management – 12 credits
- Economics – 12 credits
- Financial Accounting – 12 credits

Second Year Modules

SEMESTER 1 - COMPULSORY

- Constitutional Law – 12 credits
- Roman Law – 12 credits
- Law of Contract 2 – 12 credits
- Law of Succession – 12 credits
- Jurisprudence – 12 credits

SEMESTER 2 - COMPULSORY
- Law of Contract 2 – Specific Contracts – 12 credits
- Legal Interpretation – 12 credits
- Legal Pluralism – 12 credits
- Bill of Rights – 12 credits
- Patent and Copyright Law – 12 credits

Third Year Modules

SEMESTER 1 - COMPULSORY
- Law of Evidence 1 – 12 credits
- Law of Business Entities – 12 credits
- International Law – 12 credits
- Intellectual Property Law – 12 credits
- Law of Delict – 12 credits

SEMESTER 2 - COMPULSORY
- Law of Evidence 2 – 12 credits
- Law of Property – 12 credits
- Administrative Law – 12 credits
- Research Methodology – 12 credits
- Introduction to Tax Law – 12 credits

Fourth Year Modules

SEMESTER 1 - COMPULSORY
- Law of Civil Procedures 1 – 12 credits
- Law of Criminal Procedures 1 – 12 credits
- Criminal Law 1 – 12 credits
- Labour Law – 12 credits
- Legal Ethics and Practice – 12 credits

SEMESTER 2 - COMPULSORY
- Law of Civil Procedures 2 – 12 credits
- Law of Criminal Procedures 2 – 12 credits
- Criminal Law 2 – 12 credits

ELECTIVES: SELECT TWO
- Environmental Law – 12 credits
- International Business Law – 12 credits
- Deceased Estates – 12 credits
- Medical Law – 12 credits
- Insurance Law – 12 credits
- Accounting for Legal Practice – 12 credits
- Cyber Law – 12 credits

Admission Requirements

- Matric with Bachelor pass or NQF level 4 equivalent qualification
- English 1st - 50% | English 2nd - 60%
- A levels for International students (Africa)
- Higher level pass for international students with a APS score of 26
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Bachelor of Laws is an NQF Level 8 qualification,with 485 credits. This 4-year qualification consists of 37 compulsory modules and 2 electives.

PROGRAMMES

BACHELOR OF PUBLIC MANAGEMENT (BPM)

NQF 7 | CREDITS: 365 | SAQA ID: 97259

Programme Overview

This programme develops generic management skills required to manage public service or nonprofit organisations.

First Year Modules

- Economics 1 – 20 credits
- Public Finance Management 1 – 20 credits
- Public Human Resource Management 1 – 20 credits
- Public Management 1 – 20 credits
- Public Policy Management 1 – 20 credits
- Public Strategic Management 1 – 20 credits
- Foundational Personal Mastery – 5 credits

Second Year Modules

- Economics 2 – 20 credits
- Public Finance Management 2 – 20 credits
- Public Human Resource Management 2 – 20 credits
- Public Management 2 – 20 credits
- Public Policy Management 2 – 20 credits
- Public Strategic Management 2 – 20 credits

Third Year Modules

- Economics 3 – 40 credits
- Public Finance Management 3 – 40 credits
- Public Human Resource Management 3 – 40 credits
- Public Management 3 – 40 credits
- Public Policy Management 3 – 40 credits

Third Year – Select Two Electives

- Labour Relations – 20 credits
- Local Government Management – 20 credits
- Mentoring and Coaching – 20 credits
- Monitoring and Evaluation – 20 credits
- Project and Programme Management – 20 credits
- Public Ethics – 20 credits
- Public Procurement – 20 credits
- Quality and Customer Management – 20 credits

Admission Requirements

- Matric with Bachelor pass or NQF level 4 equivalent qualification
- Or a relevant NQF Level 5 qualification from an accredited institution as per SAQA requirements
- Regenesys Higher Certificate in Public Management
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Bachelor of Public Management is an NQF Level 7 qualification, with 365 credits. This 3-year qualification consists of 15 compulsory modules and 2 electives.

BACHELOR OF SCIENCE IN COMPUTER SCIENCE (BSCcS)

NQF 7 | CREDITS: 365 | SAQA ID: 121198

Programme Overview

The Bachelor of Science in Computer Science programme equips students for roles in designing, developing, and implementing computer software. It fosters accountability and imparts in-depth knowledge of the intersection of ethical considerations, technical challenges, and aesthetic values crucial to the development of computing systems.

First Year Modules

- Calculus and Vectors 1A – 12 credits
- Calculus and Vectors 1B – 12 credits
- Discrete Mathematics Structure – 12 credits
- Elementary Statistics for Science Students – 12 credits
- Foundations of Mathematics – 12 credits
- Fundamentals of Computers – 12 credits
- Introduction to Computer Science – 12 credits
- Foundational Personal Mastery – 5 credits
- Professional Skills – 12 credits
- Programming Languages – 12 credits
- Software Development Fundamentals – 12 credits

Second Year Modules

- Advanced Calculus and Vectors 2A – 10 credits
- Advanced Calculus and Vectors 2B – 10 credits
- Computer Organisation and Architecture – 10 credits
- Computer Science – 10 credits
- Database Management Systems – 10 credits
- Essentials of Computer Security – 10 credits
- Fundamental Data Structures and Algorithms – 10 credits
- Linear Algebra and Differential Equations – 10 credits
- Networking and Data Communications – 10 credits
- Object Oriented Programming – 10 credits
- Software Engineering – 10 credits
- Statistical Inference – 10 credits

Third Year Modules

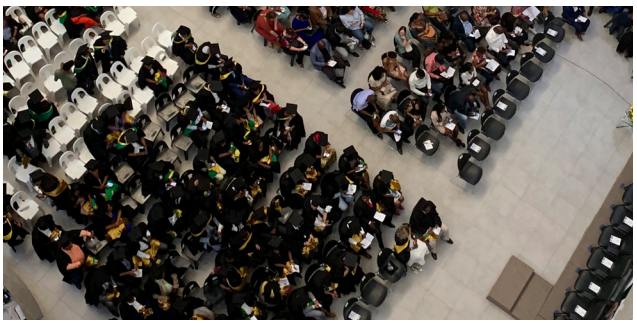

- Abstract Algebra – 10 credits
- Advanced Programming Techniques – 10 credits
- Artificial Intelligence – 10 credits
- Complex Analysis – 10 credits
- Computer Science – 10 credits
- Distributed Systems Development – 10 credits
- Graph Theory – 10 credits
- Operating Systems – 10 credits
- Project Management – 10 credits
- Real Analysis – 10 credits
- Systems Programming – 10 credits
- Work-integrated Learning – 10 credits

Admission Requirements

- Matric with Bachelor pass or NQF level 4 equivalent qualification
- Or a relevant NQF Level 5 qualification from an accredited institution as per SAQA requirements
- Basic computer skills, internet connection and relevant IT resources
- Competent in Mathematics, Science and English written and oral communication skills at NQF Level 4

Programme Structure

The Bachelor of Science in Computer Science is an NQF Level 7 qualification, with 365 credits. This 3-year qualification consists of 35 compulsory modules.

PROGRAMMES

BACHELOR OF COMMERCE IN POLITICS, PHILOSOPHY AND ECONOMICS (BCOMPPE)

NQF 7 | CREDITS: 365 | SAQA ID: 122861

This programme develops analytical and strategic thinking skills required to navigate political, economic, and ethical challenges in business, government, and international organisations. Graduates will be equipped to influence policy, drive economic decisions, and lead in a global economy.

First Year Modules

- Accounting 501 – 10 credits
- Accounting 502 – 10 credits
- Economics 501 – 10 credits
- Economics 502 – 10 credits
- Foundational Personal Mastery – 5 credits
- Politics 501 – 10 credits
- Politics 502 – 10 credits
- Philosophy 501 – 10 credits
- Philosophy 502 – 10 credits
- Statistics 501 – 10 credits
- Statistics 502 – 10 credits

Electives: Select Two

- Commercial Law 501 – 10 credits
- Commercial Law 502 – 10 credits
- Ethical Leadership 501 – 10 credits
- Ethical Leadership 502 – 10 credits
- Information Systems Management 501 – 10 credits
- Information Systems Management 502 – 10 credits

Second Year Modules

- Accounting 601 – 10 credits
- Accounting 602 – 10 credits
- Economics 601 – 10 credits
- Economics 602 – 10 credits
- Philosophy 601 – 10 credits
- Philosophy 602 – 10 credits
- Politics 601 – 10 credits
- Politics 602 – 10 credits

Electives: C Select Four

- Commercial Law 601 – 10 credits
- Commercial Law 602 – 10 credits
- Ethical Leadership 601 – 10 credits
- Ethical Leadership 602 – 10 credits
- Econometrics 601 – 10 credits
- Econometrics 602 – 10 credits
- Information Systems Management 601 – 10 credits
- Information Systems Management 602 – 10 credits

Third Year Modules

- Accounting 701 – 10 credits
- Accounting 702 – 10 credits
- Economics 701 – 10 credits
- Economics 702 – 10 credits
- Philosophy 701 – 10 credits
- Philosophy 702 – 10 credits
- Politics 701 – 10 credits
- Politics 702 – 10 credits

Electives: Select Four

- Commercial Law 701 – 10 credits
- Commercial Law 702 – 10 credits
- Econometrics 701 – 10 credits
- Econometrics 702 – 10 credits
- Ethical Leadership 701 – 10 credits
- Ethical Leadership 702 – 10 credits
- Information Systems Management 701 – 10 credits
- Information Systems Management 702 – 10 credits
- International Business Law 701 – 10 credits
- International Business Law 702 – 10 credits
- International Economics 701 – 10 credits
- International Economics 702 – 10 credits

Admission Requirements

- Matric with Bachelor pass or NQF Level 4 equivalent qualification
- Or a relevant NQF Level 5 qualification from an accredited institution as per SAQA requirements
- Basic computer skills, internet connection, and relevant IT resources
- Competent in Mathematics and English written and oral communication skills at NQF Level 4

Programme Structure

- The Bachelor of Commerce in Politics, Philosophy and Economics is an NQF Level 7 qualification, with 365 credits.
- This 3-year qualification consists of 27 compulsory modules and 10 electives.

ADVANCED DIPLOMA IN PUBLIC MANAGEMENT (AdvDipPM)

NQF 7 | CREDITS: 120 | SAQA ID: 122722

Programme Overview

This programme develops advanced competencies required for effective management and leadership in the public and development sectors. It prepares students and junior managers to address theoretical and practical challenges, enhance organisational efficiency, and drive service delivery improvements. The programme aligns with the National Development Plan 2030 (NDP), contributing to a competent and ethical public sector workforce. It also provides a pathway to postgraduate studies, such as the Postgraduate Diploma in Public Management.

Core Modules

- Advanced Local Government Operations – 20 credits
- Advanced Public Ethics – 20 credits
- Advanced Public Finance Operations – 20 credits
- Advanced Public Human Resource Management Practices – 20 credits
- Advanced Public Management Practices – 20 credits
- Advanced Public Quality and Customer Management Operations – 20 credits

Admission Requirements

- An appropriate Diploma (level 6) or an equivalent NQF level 6 qualification
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Advanced Diploma in Public Management is an NQF Level 7 qualification with 120 credits. This 1-year qualification consists of 6 compulsory modules.

PROGRAMMES

ADVANCED CERTIFICATE IN BUSINESS MANAGEMENT (AdvCertBM)

NQF 6 | CREDITS: 120 | SAQA ID: 122888

Programme Overview

This programme develops essential business management skills required to manage teams, operations, and business processes in diverse industries. It prepares graduates for leadership roles in corporate, government, and nonprofit organisations or to start their own business.

Core Modules

- Business and Operations Management – 20 credits
- Finance Operations Management – 20 credits
- Information Management – 20 credits
- Macro Economics – 20 credits

Electives: Select Two

- Credit Operations Management – 20 credits
- Human Resource Management Practices – 20 credits
- Marketing Management Practices – 20 credits
- Project Management Practices – 20 credits
- Retail Operations Management – 20 credits

Admission Requirements

- Higher certificate at NQF Level 5 in the appropriate field
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection, and relevant IT resources

Programme Structure

- The Advanced Certificate in Business Management is an NQF Level 6 qualification, with 120 credits.
- This 1-year qualification consists of 4 compulsory modules and 2 electives.

HIGHER CERTIFICATE IN BUSINESS MANAGEMENT (HCBM)

NQF 5 | CREDITS: 125 | SAQA ID: 121387

Programme Overview

This programme develops fundamental management competencies required for a career in management, or for starting an entrepreneurial venture.

Core Modules

- Fundamentals of Business Management – 20 credits
- Fundamentals of Financial Management – 20 credits
- Fundamentals of Human Resource Management – 20 credits
- Principles of Marketing – 20 credits
- Foundational Personal Mastery – 5 credits

Electives: Select Two

- Credit Management – 20 credits
- Fundamentals of Operations Management – 20 credits
- Fundamentals of Sales Management – 20 credits
- Information and Communication Technology – 20 credits
- Project Management – 20 credits
- Quality and Customer Service Management – 20 credits
- Retail Management – 20 credits
- Negotiation and Conflict Management – 20 credits

Admission Requirements

- Matric with certificate or diploma pass
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Higher Certificate in Business Management is an NQF Level 5 qualification, with 125 credits. This 1-year qualification consists of 5 compulsory modules and 2 electives.

HIGHER CERTIFICATE IN BUSINESS MANAGEMENT IN CREDIT BANKING (HCBMB)

NQF 5 | CREDITS: 125 | SAQA ID: 93947

Programme Overview

This programme develops fundamental management competencies required for a career in credit banking.

Core Modules

- Credit Management – 20 credits
- Fundamentals of Business Management – 20 credits
- Fundamentals of Financial Management – 20 credits
- Introduction to Banking – 20 credits
- Marketing Management – 20 credits
- People Management – 20 credits
- Foundational Personal Mastery – 5 credits

Admission Requirements

- Matric with certificate or diploma pass
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Higher Certificate in Business Management in Credit Banking is an NQF Level 5 qualification, with 125 credits. This 1-year qualification consists of 7 compulsory modules.

HIGHER CERTIFICATE IN BUSINESS MANAGEMENT IN RETAIL MANAGEMENT (HCBMR)

NQF 5 | CREDITS: 125 | SAQA ID: 94018

Programme Overview

This programme develops fundamental management competencies required for a career in retail management.

Core Modules

- Customer Service Management – 20 credits
- Fundamentals of Business Management – 20 credits
- Fundamentals of Financial Management – 20 credits
- People Management – 20 credits
- Retail Management – 20 credits
- Retail Marketing – 20 credits
- Foundational Personal Mastery – 5 credits

Admission Requirements

- Matric with certificate or diploma pass
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Higher Certificate in Business Management in Retail Management is an NQF Level 5 qualification, with 125 credits. This 1-year qualification consists of 7 compulsory modules.

PROGRAMMES

HIGHER CERTIFICATE IN PUBLIC MANAGEMENT (HCPM)

NQF 5 | CREDITS: 125 | SAQA ID: 96699

Programme Overview

This programme develops fundamental management competencies required for a career in public service or nonprofit organisations.

Core Modules

- Monitoring and Evaluation – 20 credits
- Public Finance – 20 credits
- Public Human Resource Management – 20 credits
- Public Performance Management – 20 credits
- Public Project Management – 20 credits
- Quality and Customer Service Management – 20 credits
- Foundational Personal Mastery – 5 credits

Admission Requirements

- Matric with certificate or diploma pass
- Competent in Mathematics, English, written and oral communication skills at NQF Level 4
- Basic computer skills, internet connection and relevant IT resources

Programme Structure

The Higher Certificate in Public Management is an NQF Level 5 qualification, with 125 credits. This 1-year qualification consists of 7 compulsory modules.

MANAGEMENT DEVELOPMENT PROGRAMMES

- Project Management
- Digital Marketing
- Data Science
- Managing Virtual Teams
- International Management

- Labour Relations
- Comparative Management Trends
- Sustainable Development
- Team Building

CORPORATE EDUCATION

Today's business thrives in a fiercely competitive global environment; management and senior executives are constantly in search of effective tools to guide and structure their business environment.

Regenesys Corporate Education offers a wide range of open-enrolment and customised corporate education programmes for senior, middle and junior managers in business, government, nonprofit, and state-owned enterprises.

Our team of learning and development professionals engages with organisations to develop customised solutions based on their specific challenges in order to maximise productivity, drive innovation, and develop a competitive advantage. The programmes are offered either at client's premises or as an energising retreat at Regenesys in Sandton. The International Leadership Development Programme is offered for senior executives, and typically includes an international study tour to China, USA, India or Dubai in the UAE.

More than 100 corporate education programmes are offered focusing on developing generic management and leadership capabilities, including Project Management, Finance for Non-Financial Managers, Design Thinking, Strategy, Marketing, HR Management, Innovation, and Emotional and Spiritual Intelligence in Leadership.

Regenesys Corporate Education comprises 100 internationally reputable faculty members with strong academic credentials and industry expertise covering a wide range of specialised management and leadership disciplines.

Regenesys is an international business school with more than 300,000 students and alumni from 190 countries, and over 1,000 corporate clients, of which the majority are large multinationals such as Mercedes-Benz, Microsoft, Coca-Cola, and Barclays, to name a few.

Regenesys alumni occupy top leadership positions in multinational corporations and government institutions all over the world, and form an influential alumni network that supports its members with business opportunities across the globe.

EXECUTIVE LEADERSHIP INTERNATIONAL PROGRAMME: LEADING A DIGITALLY DISRUPTIVE GLOBAL ECOSYSTEM

The Executive Leadership International Leadership Programme (ELIP) developsleadership competencies for the digital world. The programme explores cutting-edge knowledge, global trends and best practice in digital transformation,entrepreneurship, strategy, and innovation from the fastest-growing companies in the USA.

The ELIP is an intensive programme comprising four modules delivered over a period of six months. The first three modules are three-day study blocks delivered at the Regenesys Campus in Sandton, while the fourth module is an eight-day study tour in the USA. In addition to learning, the programme includes cultural, team-building, sightseeing, and networking activities.

The programme has been developed for executives from business, government and state-owned enterprises to deliver a truly international and life-changing experience to inspire and energise delegates, and to develop emotional and spiritual intelligence.

The ELIP programme combines robust academic rigour with practical networking and business development opportunities, creating a "WOW" experience. Participants are exposed to applied learning using innovative learning techniques, masterclasses, giants of industry, focused networking opportunities, and commercial matching to sector-level opportunities. The programme is facilitated by global faculty experts in specialised fields as well as business leaders.

The "WOW" experience is a truly inspirational, fun and life-changing learning experience created by engaging cognitive, sensory, emotional and spiritual intelligences. The "WOW" experience pushes conventional executive education boundaries!

The "WOW" experience is about:

- Future learning by applying high-tech, high-touch teaching and learning methodologies
- Learning by engaging the best and networking with giants of industry
- Fun sensory experiences that promote holistic learning and development
- Developing purpose-driven, socially and environmentally conscious global leaders

OCCUPATIONAL CERTIFICATE: FAMILY LAW PRACTITIONER

NQF 5 | CREDITS: 205 | SAQA ID: 119432

Programme Overview

Pursuing a qualification as a family law practitioner in South Africa offers students a chance to make a profound impact on individuals and families during some of their most challenging times.

Family law practitioners play a vital role in navigating complex issues such as divorce, child custody, and adoption, providing essential support and guidance.

With the increasing demand for skilled professionals in this field, students can look forward to a rewarding career that combines legal expertise with compassionate client care. Additionally, this specialisation offers diverse opportunities within law firms, non-profit organisations, and government agencies, ensuring a stable and fulfilling career path. By studying family law, students can contribute to the well-being of society while building a meaningful and impactful profession.

Qualifications Specifications

- Duration: 18 months
- Accreditation body: Quality Council for Trade and Occupations (QCTO)

Admission Requirements

- NQF Level 4
- 2 years of experience within the legal sector

Occupation Function

The primary purpose of a family law practitioner in South Africa is to provide legal assistance and support in matters related to family relationships.

Programme Structure

The programme is divided into 7 modules covering the following:

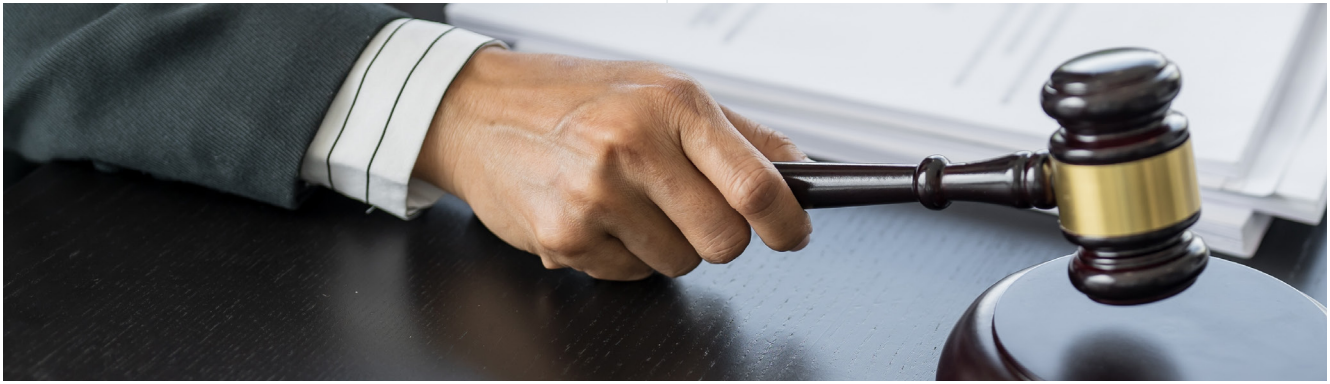

- General Principles of Law
- General Principles of Family Law
- Professionalism and Ethical Compliance in Family Law
- Child related matters in a Family Law context
- Domestic violence within the context of family law
- Basic theory on dispute resolutions
- Communication within the family law context

The programme consist of:

- Facilitator-led online knowledge modules
- Facilitator-led online practical modules
- Workplace-based learning modules (56 compulsory workplace based days)
- External Integrated Summative Assessment (exam)

Vertical Articulation

- Diploma in Paralegal Studies, NQF Level 6

OCCUPATIONAL CERTIFICATE: PARALEGAL

NQF 5 | CREDITS: 330 | SAQA ID: 117325

Programme Overview

Studying for a paralegal qualification in South Africa offers students a unique opportunity to enter a dynamic and rewarding field. With the country's evolving legal landscape, paralegals play a crucial role in supporting attorneys and ensuring the smooth operation of legal processes. This qualification not only opens doors to various career paths within law firms, corporate legal departments, and government agencies but also provides a solid foundation for those considering further legal studies. Additionally, the demand for skilled paralegals is on the rise, making it a promising career choice with competitive salaries and opportunities for growth. By pursuing this qualification, students can make a meaningful impact in the legal system while enjoying a fulfilling and stable career.

Qualifications Specifications

- Duration: 24 months
- Accreditation body: Quality Council for Trade and Occupations (QCTO)

Admission Requirements

- NQF Level 4, **or**
- 3 years of experience within the legal sector

Occupation Function

A paralegal consults, refers, advises and communicates with clients within the paralegal contexts and performs administrative services to communities within the legal framework.

Programme Structure

The programme is divided into 10 modules covering the following:

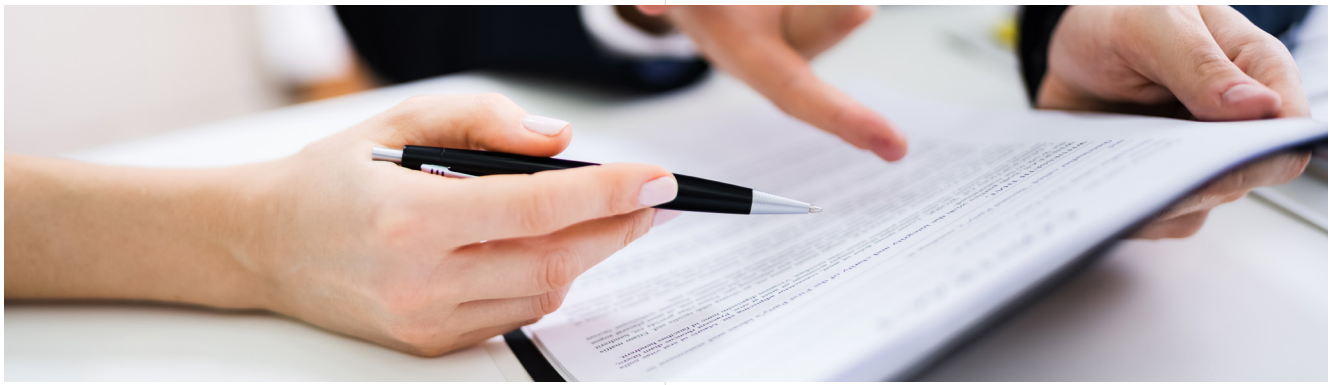

- Fundamentals of Law
- Basic theory on Wills and Estates
- Introduction to Labour Law
- Basic theory on Dispute Resolutions
- Legal Writing
- Basic Criminal Law and Procedure
- Basic Civil Law and Procedure
- Fundamentals of Customer Law, Common Law and Family Law
- Law of Evidence

The programme consists of:

- Facilitator-led online knowledge modules
- Facilitator-led online practical modules
- Workplace-based learning modules (106 compulsory workplace-based days)
- External Examination

Vertical Articulation

- Diploma in Paralegal Studies, NQF Level 6

DIGITAL SKILLS PROGRAMMES

Regenesys offers cutting-edge digital programmes to prepare managers, professionals, entrepreneurs and leaders to excel in the digital age.

DATA SCIENCE

Programme Overview

This programme provides participants with the knowledge, skills and experience associated with data science. The participants will explore a range of tools, algorithms, machine learning and statistical techniques with the aim of discovering hidden insights and patterns from raw data in order to inform scientific business decision making.

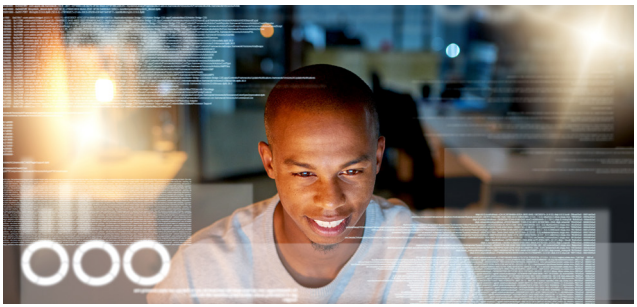

The programme covers key areas of data science such as data analytics, machine learning and artificial intelligence.

Programme Content

- Introduction to data science terminologies, definitions, and concepts
- The evolution of data science
- Introduction to relevant mathematical and statistical analysis techniques, algorithms, programming, visualisation and cloud concepts
- Introduction to data structures, cleaning, accessing, filtering, analysing, using, communicating and managing data using cutting-edge software
- Introduction to machine learning, artificial intelligence, robotics, and blockchain
- Modern application of data science
- Digital transformation strategy
- Critical success factors in the management of data science project

Programme Structure

Duration is 12 months, 4 hours per week. Bespoke solutions are available for corporates.

ARTIFICIAL INTELLIGENCE

Programme Overview

The Artificial Intelligence (AI) programme unlocks AI's potential by equipping participants with the skills to develop and integrate AI solutions. Through hands-on learning and real-world case studies, you'll gain expertise to drive innovation, solve business challenges, and create competitive advantages. Designed for beginners and professionals, this program prepares you to harness AI across industries like healthcare, finance, and manufacturing.

Programme Content

- The evolution and future of artificial intelligence
- An introduction to terminologies, definitions, and concepts of AI and related disciplines such as machine learning, robotics, data science, blockchain, and the internet of things
- Overview of principles, techniques and business applications of artificial intelligence
- An introduction to problem solving, logic, search algorithms, data structures, neural networks, and programming in AI language tools
- Integration of AI into your organisation to promote innovation, automation, efficiency, and improved customer experience to gain a strategic competitive advantage
- Digital transformation strategy
- Developing an AI strategy to ensure a sustainable company for the future
- Developing an AI action plan, with KPIs and resources needed
- Critical success factors to manage AI initiatives

Programme Structure

Duration is 11 months, 4 hours per week. Bespoke solutions are available for corporates.

CLOUD COMPUTING AND DEVOPS WITH AI/ML

Programme Overview

This programme provides participants with the knowledge, skills, and experience associated with cloud computing, DevOps, and Artificial Intelligence (AI)/Machine Learning (ML) technologies. Participants will explore cloud platforms such as AWS, Microsoft Azure, and Google Cloud, as well as DevOps practices, including Continuous Integration (CI)/Continuous Delivery (CD), automation, and infrastructure management. Additionally, the programme introduces Artificial Intelligence and Machine Learning to enhance cloud systems and drive innovation in digital transformation.

Programme Content

- Introduction to cloud computing terminologies, definitions, and concepts
- The evolution of cloud computing
- Introduction to cloud platforms such as AWS, Microsoft Azure, and Google Cloud Platform
- Introduction to DevOps principles, automation, CI/CD, and containerisation tools like Docker and Kubernetes
- Introduction to AI/ML and GenAI for cloud infrastructure optimisation
- Modern application of cloud computing and DevOps
- Digital transformation strategies with AI/ML integration
- Critical success factors in the management of cloud and DevOps projects

Programme Structure

Duration is 8 months, 4 hours per week. Bespoke solutions are available for corporates.

CYBERSECURITY

Programme Overview

This programme provides participants with the knowledge, skills, and experience of cybersecurity management. The participants will gain an understanding of cybersecurity and network threats, vulnerabilities, data security, risk management, development of a cybersecurity plan, an emergency management procedure, and disaster recovery. The programme will explore several of the worst recent cybercrimes, their impact and lessons learned.

Programme Content

- An introduction to terminologies, definitions, and concepts of cybersecurity – firewalls, advanced hackers, malware, viruses, trackers, phishing, trojans, zero-days, exploit kits, and identity theft
- The evolution and future of cybersecurity
- Review of the most popular and recent global cybercrimes committed
- Cybersecurity and network threats, vulnerabilities, hacker techniques, tracking down hackers, and forensics of cybersecurity
- Data security
- Development of a cybersecurity plan, risk management, emergency procedure, and disaster recovery
- Security, privacy and patching for the most popular operating systems such as Windows, MacOS and Linux
- Cyberlaw, ethics, government spying, and mass surveillance
- Industry best practices to achieve a robust cybersecurity outcome
- Key success and failure factors in cybersecurity

Programme Structure

Duration is 5 months, 4 hours per week. Bespoke solutions are available for corporates.

DIGITAL SKILLS PROGRAMMES

DATA AND BUSINESS ANALYTICS

Programme Overview

This course introduces essential concepts and tools, emphasising skills for effective data analysis and reporting. The curriculum highlights the pivotal role of management information systems in integrating data insights into decision-making. Moving to the advanced stage, participants will delve into techniques focused on storytelling through data visualisation and develop expertise in predictive and prescriptive analytics. The course aims to elevate skills, preparing participants for challenges in the dynamic field of business analytics.

Programme Content

- Introduction to data science report building with no-code tool
- Foundations of business analytics
- Analysing trends and patterns, and advanced data analysis
- Management information systems
- PowerBI basics and advanced PowerBI features
- Data visualisation with story boarding
- Predictive and prescriptive analytics

Programme Structure

Duration is 8 months, 4 hours per week. Bespoke solutions are available for corporates.

FULL STACK DEVELOPMENT

Programme Overview

The Full Stack Web and Software Development course provides comprehensive training in modern web development. Covering front-end (HTML, CSS, JavaScript) and back-end (Node.js, Express.js, MongoDB) technologies, learners gain skills to build dynamic, responsive web applications. The programme also covers collaboration with Git/GitHub, advanced JavaScript concepts, and web security best practices. Through hands-on projects and real-world simulations, students gain practical experience, preparing them for diverse full stack development challenges.

Programme Content

- Front-end development
- Introduction to react
- Version control
- Interactive websites and accessibility
- Advanced JavaScript and testing
- Collaboration with Git and GitHub
- Back-end development
- Databases
- Connecting front-end to back-end
- Web security
- Operating systems and DevOps
- Full stack e-commerce experience

Programme Structure

Duration is 9 months, 4 hours per week. Bespoke solutions are available for corporates.

PROJECT MANAGEMENT

Programme Overview

This course blends traditional project management practices with design thinking methodologies to deliver innovative solutions that align with customer needs. Unlike conventional programmes focused on planning and execution, it emphasises collaborative ideation, teamwork, and continuous user-feedback-driven improvement. Learners gain a project-centric problem-solving approach, mastering requirements gathering and solution crafting. The holistic approach combines best practices from both domains, equipping learners to meet project needs efficiently and effectively.

Programme Content

- Introduction to project management
- Project profiling
- Developing team capabilities
- Planning and managing
- Time management
- Monitoring and reporting
- Quality management
- Project closure
- Change management
- Disaster management
- International project management
- Project management software
- Design thinking
- Contracts and agreements

Programme Structure

Duration is 8 months, 4 hours per week. Bespoke solutions are available for corporates.

DIGITAL MARKETING WITH GENAI

Programme Overview

This programme provides participants with the knowledge, skills, and experience associated with digital marketing and generative AI. Participants will explore AI-driven marketing strategies, SEO, social media marketing, and paid advertising techniques. The programme covers key areas such as content creation using AI, campaign optimisation, and innovative marketing approaches to engage audiences and drive business success.

Programme Content

- Introduction to digital marketing terminologies, definitions, and concepts
- The evolution of digital marketing with GenAI
- Introduction to AI-driven SEO strategies and content creation
- Paid media marketing and social media strategies
- Introduction to marketing on platforms like Facebook, Instagram, TikTok, WhatsApp, and LinkedIn
- E-commerce marketing and affiliate marketing strategies
- Digital transformation strategies for marketing
- Critical success factors in managing digital marketing campaigns

Programme Structure

Duration is 6 months, 4 hours per week. Bespoke solutions are available for corporates.

DIGITAL SKILLS PROGRAMMES

DESIGN THINKING

Programme Overview

This Design Thinking course imparts a comprehensive grasp of design thinking principles. It cultivates systematic problem-solving, innovative thinking, and collaborative teamwork to craft user-centric solutions. The programme nurtures an experimental mindset, enabling learners to design superior user experiences, driving customer satisfaction and market differentiation.

Programme Content

- Introduction to design thinking foundations
- Innovation and design thinking
- Design thinking mindset
- Design thinking for creative problem solving
- Establishing design thinking in organisations
- Digital transformation: integrating design thinking and technology
- User experience
- Research and design thinking
- Design thinking for data science: user needs and data insights

Programme Structure

Duration is 7 months, 4 hours per week. Bespoke solutions are available for corporates.

PRODUCT MANAGEMENT

Programme Overview

The Product Management programme provides comprehensive training designed to equip professionals with the skills and knowledge required to succeed as product managers. This programme covers the entire product lifecycle, from ideation and customer research to product development, launch, and continuous improvement.

Programme Content

- Introduction to product management
- Customer insights for product innovation
- Analysing product opportunities
- Business model design
- Financial analysis
- Product planning and mapping
- Taking product to market
- Managing product evolution and growth
- Product discovery and requirements
- UI and UX design
- Product prototyping
- Agile product development
- Business communication for product managers
- Analytics, AI and machine learning
- Tech for product managers

Programme Structure

Duration is 7 months, 4 hours per week. Bespoke solutions are available for corporates.

MANAGEMENT ADVANCEMENT

Programme Overview

The Management Advancement programme offers a comprehensive curriculum covering key areas such as strategic management, innovation,operational excellence, finance, marketing, and leadership. Participants will gain practical insights and skills to navigate complex business environments, drive innovation, optimise operations,and lead teams effectively.

Programme Content

- The business environment
- Managing the art of innovation
- Entrepreneurship and intrapreneurship
- Emerging technologies for managers
- Operational effectiveness
- Effective project execution
- Business finance for managers
- People and performance management
- Marketing for managers
- Essential communication tools
- ESG for managers

Programme Structure

Duration is 11 months, 4 hours per week. Bespoke solutions are available for corporates.

UI/UX AND GRAPHIC DESIGN WITH GENAI

Programme Overview

This programme empowers learners with essential skills in Graphic Design and UI/UX, enhanced by GenAI technology. Participants will develop their design abilities, learn to generate innovative ideas faster, automate repetitive tasks, and expand their creative potential.

The course prepares learners to thrive in a digital-first environment, combining foundational design principles with advanced GenAI-powered techniques.

Programme Content

- Introduction to Graphic Design and UI/UX fundamentals
- Design tools and techniques: Canva, Figma, Adobe Photoshop, Illustrator, and InDesign
- Key concepts in front-end development: HTML, CSS, JavaScript
- Prototyping and user-centred design strategies
- Hands-on practice with website builders: WordPress, Webflow, Wix
- Advanced GenAI techniques for design automation
- Mobile app design essentials
- Modern applications of digital design
- Industry-aligned design certifications and career preparation

Programme Structure

Duration is 6 months, 4 hours per week. Bespoke solutions are available for corporates.

DIGITAL SKILLS PROGRAMMES

DIGITAL TRANSFORMATION

Programme Overview

This programme empowers leaders and professionals with the tools and strategic frameworks needed to successfully lead digital transformation in their organisations. It focuses on how to integrate digital technologies into all aspects of business to drive innovation, improve performance, and enhance customer experience. Participants will gain a clear understanding of digital disruption, transformation roadmaps, and change management in a rapidly evolving digital economy.

Programme Content

- Understanding digital transformation and its impact on business models
- Identifying digital opportunities and assessing digital maturity
- Developing a digital transformation strategy and roadmap
- Exploring emerging technologies such as cloud computing, IoT, AI, and big data
- Leading organisational change and overcoming resistance
- Aligning people, processes, and technology for effective transformation
- Building agile capabilities and digital culture
- Measuring success and ROI of digital transformation initiatives

Programme Structure

- Duration: 8 weeks (4 hours per week)
- Flexible learning format with real-world case studies and project-based assessments
- Bespoke corporate solutions available on request

ESG LEADERSHIP PROGRAMME

Programme Overview

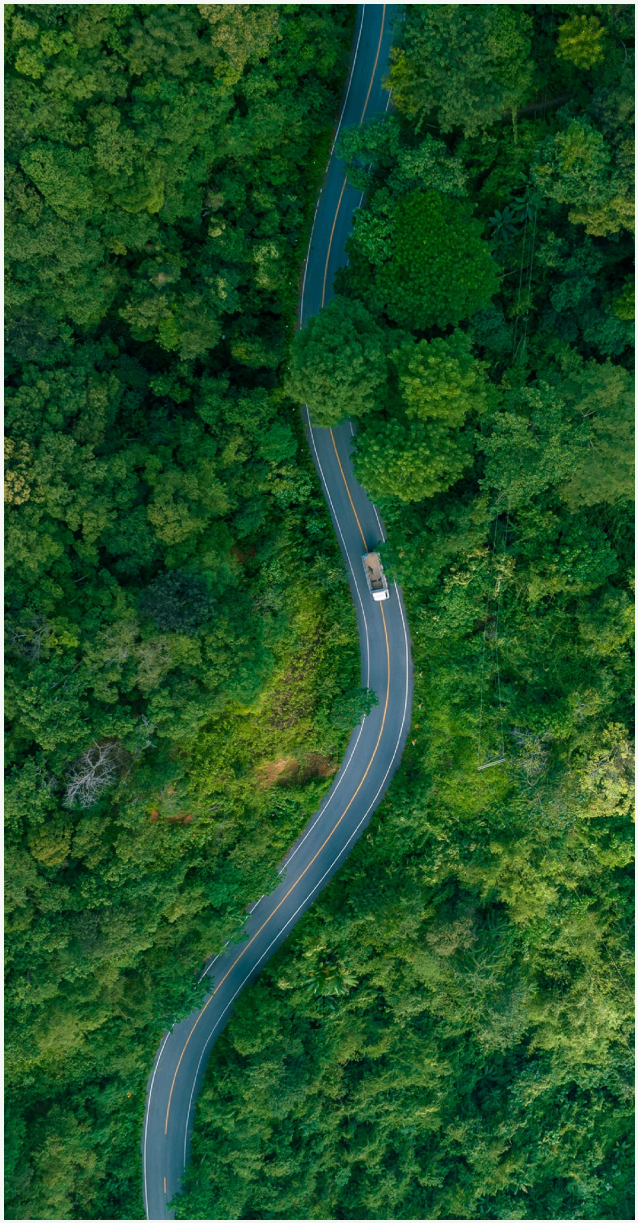

The ESG Leadership Programme by Digital Regenesys equips leaders to embed ESG principles into their organisations through expert-led sessions, practical tools, and case-based learning. Covering both global and African contexts, it empowers participants to develop impactful ESG strategies that drive resilience, meet stakeholder expectations, and lead in a purpose-driven economy.

Programme Content

- ESG Fundamentals and Global–African Context
- Environmental Factors
- Social Responsibility
- Governance and Compliance
- ESG Strategy Development and Business Integration
- Best Practices in ESG Leadership and Tools for ESG
- Capstone Project

Programme Structure

- Duration: 8 Weeks
- Format: Live online sessions led by industry experts
- Features: Global Certificate | Workplace Readiness | Real-World Projects | Custom Corporate Options Available

PERSONAL MASTERY

Master yourself, craft your legacy

BE THE LEADER THAT SHAPES TOMORROW

NEURO-LEARNING INTEGRATION

We don't believe in one way of learning

A healthy body carries a healthy mind

FQ (FINANCIAL INTELLIGENCE)
Making finance meaningful

NQ (NETWORKING INTELLIGENCE)
Your network is your net worth

SQ (SPIRITUAL INTELLIGENCE)
Beyond IQ:
We nurture purpose

PERSONAL MASTERY
Master yourself, craft your legacy

CONSCIOUS LEADERSHIP
Your IQ is the start, your journey is what matters

The Regenesys Journey is more than education; it's a holistic transformation. We grow your IQ, EQ, PQ, FQ, NQ, and SQ to shape leaders who think critically, lead with empathy, and act with purpose. From mastering yourself to mastering influence, we help you craft a legacy of conscious leadership.

This isn't just learning; it's becoming.

SKILLS PROGRAMMES

REGENESYS OFFERS VARIOUS TYPES OF SKILLS PROGRAMMES RANGING FROM SHORT COURSES AND QUALIFICATIONS TO LEARNERSHIPS

The skills programmes are based on unit standards or a combination of unit standards that lead to a qualification. Learnerships incorporate work-based learning experience, and and are accredited by the Quality Council for Trade and Occupation.

Regenesys offers the following skills programmes, qualifications, and learnerships:

- Further Education and Training Certificate: New Venture Creation – SAQA ID: 66249
- Certificate Programme in Municipal Financial Management – SAQA ID: 48965
- National Certificate: Information Technology: End User Computing – SAQA ID: 49077
- Occupational Certificate: Retail Store Manager – SAQA ID: 91789
- National Certificate: Generic Management – SAQA ID: 59201

Regenesys' programmes are:

- Accredited by the Quality Council for Trades and Occupations (QCTO), Umalusi, and the Council on Higher Education (CHE)
- Registered by the Department of Higher Education and Training
- Recorded by the South African Qualifications Authority (SAQA)

The Regenesys Skills Programmes department comprises 100 reputable international faculty members with strong academic credentials and industry expertise covering a wide range of specialised management and leadership disciplines.

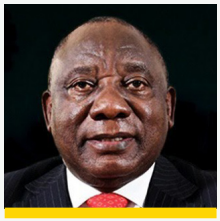

Regenesys is an international business school with more than 300,000 students and alumni from 190 countries, and over 1,000 corporate clients, of which the majority are large multinationals such as Mercedes-Benz, Microsoft, Coca-Cola, and Barclays, to name a few. Regenesys alumni occupy top leadership positions in multinational corporations and government institutions all over the world, and form an influential alumni network that supports its members with business opportunities internationally

- ESG Leadership Programme

EDFORALL

EdForAll is a disruptive solution that seeks to give hope to disadvantaged students by helping them awaken their potential against all odds. The EdForAll initiative gives qualifying students online access to Regenesys' accredited, high-quality bachelor's degrees, diplomas and certificate programmes. Students pay a monthly portal fee from as little as R500 (US$35) for the duration of their studies, giving them full access to online learning materials and lectures to study their chosen qualification. The remainder of their tuition fees are repaid once these students are employed.

Programmes

- Higher Certificate in Business Management
- Higher Certificate in Business Management in Credit Banking
- Higher Certificate in Business Management in Retail Management
- Higher Certificate in Public Management
- Bachelor of Business Administration
- Bachelor of Business Administration in Retail Management
- Bachelor of Business Administration in Banking
- Bachelor of Laws ***subject to conditions***
- Bachelor of Public Management
- Bachelor of Science in Computer Science
- Postgraduate Diploma in Public Management
- Postgraduate Diploma in Business Management

THE REGENESYS GROUP

REGENESYS INVESTMENT FUND

Regenesys Investment Fund, founded in 2015, prioritises a customer-centric approach. We specialise in understanding financial markets and offer a variety of dynamic investment products, empowering clients in their pursuit of financial freedom.

At Regenesys Investment Fund, we aim to be your reliable companion on the journey towards financial independence. Whether you're focused on wealth growth or planning for retirement, our comprehensive solutions are designed to assist you in reaching your financial goals.

Services

- Discretionary investments in equities
- Short- and long-term insurance
- Estate planning
- Pension and provident funds
- Business consulting
- Online trading courses

Regenesys Investment Fund supports Regenesys students by providing student loans and customised financial solutions. We also offer education in stock market trading, investments, and the transformation of financial mindsets.

FINEDTECH

Founded in 2023, FinEdTech endeavours to bridge the gap between the worlds of tomorrow and today. Our mission is to revolutionise both the classroom and the boardroom, transforming potential into reality and charting paths to unexplored territories.

At FinEdTech we envision a world where solutions not only demonstrate intelligence and scalability, but also epitomise global standards in innovation. We pioneer change by revolutionising both the classroom and the boardroom, transforming potential into reality and charting paths to unexplored territories. Our aim is to turn the impossible into the possible, redefining the boundaries of technology and education.

Services

- Transformative tailored solutions
  - E-mail
  - SMS
  - Integrated payments
  - Education
  - Recruitment
  - CRM and ERP
- Modernising digital landscapes
- Converting data into strategic assets
- Payment gateways
- Customised applications

THE REGENESYS GROUP

DANANDA TALENT

Founded in 2017, Dananda is a distinguished talent acquisition agency. It specialises in addressing human capital challenges by meticulously matching candidates with the right experience, qualifications, and cultural fit, ensuring businesses secure the necessary talent for success.

Leveraging its extensive global footprint, Dananda maximises reach across business networks, enhancing quality, and consequently boosting the efficacy and profitability of its clients.

Services

- Executive search and recruitment
- Contingency recruitment
- Graduate recruitment
- Recruitment process outsourcing
- Temporary employment services

Dananda also plays a crucial role in helping Regenesys students find employment, providing internships, and delivering recruitment services to both the Regenesys Group of Companies and external clients.

HEALTHI

Healthi, established in 2018, is dedicated to achieving wellness through a balance of physical, mental, and spiritual health.

The organisation's approach to holistic development is designed to enhance all aspects of intelligence – cognitive, emotional, spiritual, physical, financial, and networking – helping individuals reach their full potential.

Services

- Weight loss and toning
- Injury rehabilitation and injury risk assessment
- Sport-specific conditioning
- Body composition testing and postural analysis
- Nutrition and supplementation consultation
- Special cases and event preparation
- Corporate fitness and health programmes
- Biomechanical and functional analysis

Healthi extends its services to provide health and wellness consulting and classes to Regenesys students, staff, and clients. Key activities include yoga, HIIT, meditation, healthy eating, cooking classes, stress management, and tai chi.

THE REGENESYS GROUP

REG CAFE

Reg Cafe, established in 2019, functions as a café and events and conferencing company, specialising in facilitating corporate events, training, and conferences. With an emphasis on providing nourishing meals, our services include venue rental, catering, production services (including photography from pre- to post-production), and cafe operations.

Our culinary offerings prioritise health-conscious options, featuring vegan selections and responsibly sourced, hormone-free meat dishes. Reg Cafe's conference packages focus on providing a blend of healthy and flavourful food options. We aim not only to serve meals but also to enhance conversations with memorable dining experiences. Trust us with your event, and experience our commitment to hospitality excellence, ensuring your guests depart nourished, impressed, and inspired.
